

THE NEW OPEL MERIVA

Wir leben Autos.

YOU'RE IN A GOOD PLACE.

The new Opel Meriva is the car that feels just like home. For comfort, convenience and sheer interior space, nothing else in the compact category comes close. The FlexDoors® ensure access couldn't be simpler but the generous interior is where easy living really kicks in – with a high driving position and luxurious, lounge-like seating for five.

Outside, the new Meriva looks more stylish than ever. Inside, it's packed with practicality. Like Opel's trademark FlexSpace® and FlexRail® systems that let you rearrange the interior in a couple of clicks. And the type of engineering that made a previous Meriva generation one of Germany's most reliable ranges¹ six years in a row. From your daily commute to a picnic to a trip to the shops, the new Meriva has everything you need to take life in your stride.

The contents of this catalogue were accurate at the time of going to press (10/2013). We reserve the right to alter specifications and equipment at any time. Please consult your Opel dealer for the very latest information.

¹ According to the breakdown call-out statistics collated annually by the German Automobile Club ADAC, the Meriva was the most reliable pre-owned minivan from 2006 to 2011.

REDEFINING PEOPLE-FRIENDLY DESIGN.

With its pioneering design, the new Meriva leads from the front. The bold grille and eagle-eye headlamps underline the car's confident, can-do character. From the side, an optional chrome belt line adds a touch of urbane elegance but it's the outstanding FlexDoors® that get all the attention, and for good reason. They help make the Meriva one of the most user-friendly cars we've ever built. At the back, high-set rear lamps show off another big, easy-access door. Like FlexDoors®, the tailgate delivers in full on its promise – of a large, convenient, comfortable space.

GIVE YOURSELF SOME SPACE.

The new Opel Meriva is full of the feel-good factor. In the front, optional ergonomic-certified AGR¹ seats are a treat for your body while the clean dash layout and high sitting position make for an excellent view. In the front or the back, there's plenty of room. High-quality materials and colours make the Meriva a pleasant space to spend quality time with your favourite people. It's fresh, different, cosy and familiar.

¹The AGR certificate is a seal of quality awarded by an independent testing committee made up of experts from various medical disciplines.

ADAPT ON DEMAND.

The new Meriva is packed with great ideas that give you the flexibility to pack more into your day. Rear-hinged FlexDoors® make it easier to get in and out, and make light of normally tricky tasks like settling small children safely into the back or placing big shopping bags on the back seat. FlexRail® is a modular, sliding storage system between the front seats that you can reconfigure to fit different items. FlexSpace® does the same for people and bigger loads (up to 1.496 litres) by letting you rearrange the three rear seats. And with the integrated FlexFix® bike carrier you can easily mount two bikes on the back bumper.

CLEVER CONTROLS. QUICKER CONNECTIONS.

The new Meriva is as good with gadgets as it is with people. Smartphones and other gear connect to the car so you can access everything on them using the built-in infotainment system. From state-of-the-art navigation systems to MP3 and radio/CD players with Bluetooth® and digital radio (DAB), Opel offers the full range of integrated infotainment options.

With IntelliLink technology, accessing your media and contacts is a cinch. You can make calls and stream audio using Bluetooth® from portable devices via a big 7-inch screen. Or hook up for full access via the aux-in and USB in the FlexRail® console. Whichever way you like to do it, the new Meriva makes sure your connection is quick.

LIVELY ENGINES. MINIATURE COSTS.

If your engine is efficient, you don't have to choose between fuel savings and a lively drive. The new Meriva is available with Opel's cost-cutting ecoFLEX technologies and the next generation of German-engineered, mid-sized diesel engines that significantly reduce emissions and consumption. Like the XX litre XXXXX unit with XX kW (XX hp) and the XX litre version with XX kW (XX hp), which put out just XXXg CO₂/km. What's more, there's an automatic transmission available for petrol and diesel models – because owning the Meriva isn't about making a choice between two things you want. It's about having both.

NOTE TO COUNTRIES:

Please insert the most economical engine(s) relevant for your market.

SAFETY IS PRIORITY.

When it comes to safety, Opel goes the extra mile. We offer a series of sophisticated technology options that help reduce the risk of damage or injury to you, your new Meriva and other road users. Like the Rear View Camera and Park Assist, which use sensors to help you park in tight spaces. Or Adaptive Forward Lighting (AFL), which makes cornering at night safer and less stressful by automatically adjusting your headlamps.

Opel is committed to enhancing road safety through advanced technology. Which is why the Meriva doesn't just feel safer than ever. It is.

STREET CAFE

BAR - GLACIER

EASY IN,
EASY OUT.

COMFORT COMES FIRST.

The new Meriva's strengths at a glance. The seating position is not the only thing that is higher than usual. The level of all-round comfort, convenience and quality is excellent – and a big part of what makes the Meriva a pleasure to own. Despite its city-friendly, compact outer dimensions, a versatile interior gives you the luxury of added space.

Inside the Meriva, headroom, elbowroom and legroom are all in good supply. Flex technologies make maximum use of the space afforded by the high roof. The most obvious example is the striking FlexDoors® system that lets you get in and out of the back seats easier – and with a healthier posture. Inside the Meriva, FlexSpace® allows you to change the number of passenger seats and enlarge the boot without taking any seats out. Optional FlexFloor® alters the height of the floor of the boot to fit different load situations and shapes. For example, you can raise it to make the boot flush with the bumper, adding an extra compartment underneath. The optional FlexFix® bike carrier is another hidden gem, this time inside the bumper itself. It's the fast and easy way to mount bikes on the back of the car.

ESSENTIA.

The Essentia Trim Line is new Meriva through and through. Of course, the trademark rear-hinged FlexDoors® and versatile FlexSpace® seat organization system come standard, as do an impressive array of clever technologies and features. Like ESP®Plus and Hill Start Assist, which helps you pull away safely on steep gradients. To make sure you're as comfortable as possible, the Essentia is equipped with a height-adjustable driver's seat and a steering wheel that's tilt and telescope-adjustable too.

1.

2.

3.

1. LED headlamps with Daytime Running Lights. They don't just look great, they're more energy-efficient and last longer too.

2. Electric parking brake. At the push of the button you're ready to move off – or stop. The electric parking brake is a stylish and straightforward way to apply the handbrake.

3. Electric front windows. The Essentia comes with the added convenience of auto up and down, so you can open and close the window all the way with one touch of a button.

1. FlexRail® adjustable storage. Clutter takes a back seat with this neat organizer on rails that you can customize quickly to suit the shape of items you need to hand. Mounted right between the front seats, integrated lighting makes it easy to use in the dark.

2. 16" steel wheel. The Enjoy looks the part on seven-spoke wheels with a smart, tidy finish.

ENJOY.

The Meriva Enjoy Trim Line has the excellent standard spec of the Essentia, with some practical and stylish treats on top. Aside from a sleek, chrome-ringed instrument panel and larger wheels, the Enjoy comes with the FlexRail® central storage organizer, plus rails for attaching extra storage elements in the boot. It also features air conditioning and the CD 300 radio/CD with a Triple Info Display. The Enjoy is big on safety, with two-way active headrests in the front and a seat-belt warning system for all five seats. Driver, front passenger and curtain airbags come standard.

ACTIVE.

The Active Trim Line has all the practicality, space and comfort of the Meriva Enjoy (previous page), but gives it an energetic twist – with a bold Active badge and the exclusive Salta seat trim. Robust and versatile like the new Meriva itself, Salta can take the rough with the smooth. So it's the ideal covering for people with a busy schedule who like to get a lot out of their car.

One-of-a-kind seats. Unique to the Active Trim Line, the Salta seat fabric lives up to the reputation of the new Meriva range, taking comfort and quality to new levels.

1.

2.

1. Leather-wrapped steering wheel. Top-level comfort isn't just about space and seats. A leather-bound steering wheel looks and feels luxurious, and it's easier to grip.

2. Front armrest. Stay relaxed on long trips with support for your arm, no matter which side of the car you are sitting on.

DESIGN EDITION.

If you like cars that attract more than a second glance, the **Design Edition is the Meriva for you.** It gives this versatile car a distinctly stylised edge, with a choice of 17-inch or 18-inch two-tone alloys, plus darkened head- and tail lights. You can further enhance the designer aesthetic with two optional design packs. Design Edition Pack 1 adds a sleek black roof, black wing mirrors and tinted rear windows. The Design Edition Pack 2 gives your Meriva a sporty makeover with the OPC style Body Tuning Kit shown on page [42](#).

NOTE TO COUNTRIES:

Cross reference to the Body Tuning or Extras & Accessories double-spread showing the Meriva with Body Tuning Kit. Please change the page number if need be.

COSMO.

The new Meriva range has excellent standard spec – and an excellent standard bearer: the Cosmo Trim Line. The Cosmo stands out with special features large and small. The leather steering wheel is fitted with remote control switches for key features such as cruise control, and Cosmo passengers enjoy ambient lighting and electric windows throughout. Outside the car, eye-catching chrome highlights, sill plates and fog lamps give the Cosmo an elegant look.

1. Chrome window belt line. Fine design comes in many shapes and sizes, including sleek chrome rims that run along the bottom of the Cosmo windows.

2. 16" wheel. The Cosmo comes with a handsome set of five-spoke steel wheels, with a muscular profile.

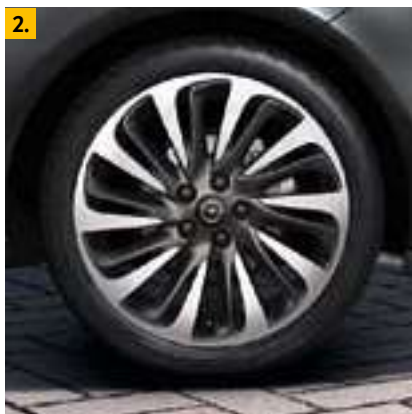

3. Logo bar. The new-look bar that runs across the front grille marks this Meriva out from the crowd.

1.

2.

1. Black logo bar. A change of colour can transform the look and feel of a car.

Where the Cosmo has a chrome grille bar, the Midnight Edition bar matches the body paint of the rest of the exterior.

2. 18" alloys. The Midnight Edition rolls on the king of Meriva wheels, with a Titan finish that lives up to the name.

MIDNIGHT EDITION.

The Midnight Edition combines some of the best features from the top-of-the-range Meriva Cosmo with athletic body styling from the Body Tuning Kit. The sporty side sills, rear bumper and roof spoiler set the racing tone, which is underscored by big, 18-inch alloy wheels with a striking Titan finish. The Cosmo's distinctive chrome belt line is another reminder of the top-notch spec on offer inside the car, while darkened rear lamps add to the midnight mystique.

ERGONOMICS IS KNOWING WHERE COMFORT COUNTS.

The Opel Meriva boasts a world first. Its all-round ergonomic concept was the first to receive certification¹ from Germany's prestigious AGR organization, in recognition of its capacity to reduce the strain on your back. For example, with the easy-access FlexDoors®, FlexFix® slide-out bicycle carrier system or FlexSpace® versatile seating system. With these and other innovations, the new Meriva proactively reduces the risk of a strain in apparently harmless everyday situations – so they stay harmless for good.

¹The AGR certificate is a seal of quality awarded by an independent testing committee made up of experts from various medical disciplines.

1. Easy-access FlexDoors®. The rear hinges on Opel FlexDoors® mean you can open the doors much wider than normal, making it easier to get in and out of the back seats, or to help other people do the same. Even placing a bag in the back is simpler – and safer – than with regular doors.

2. FlexFix® integrated bike carrier. This practical bike carrier slides out of the rear bumper, making it simple to mount up to two bikes on the car, screwdriver-free. When you don't need it anymore, it slides back into the bumper.

3. and 4. Versatile FlexSpace® seating. Opel's FlexSpace® system lets you switch quickly and simply from three rear seats to two, or one, or none at all – all without ever removing a seat. With the two-seat option, you can turn the third, middle seat into a handy armrest with extra storage compartments.

COMFORT WITHOUT COMPROMISE.

Nothing says 'welcome home' better than a wide-open door, and car doors don't come much more wide open than on the new Opel Meriva. But the homely feeling isn't just down to big innovations like the FlexDoors®. It's a combination of features and technologies large and small, a whole family of inventive and thoughtful ideas that together improve the quality of life in your car.

1.

2.

3. Panorama sunroof. Big, bright and beautiful, this sunroof stretches right over both rows of seats. If you need a little less light, there's the electrically powered sunshade.

2. FlexRail® interior storage. Keep your belongings in their place, out of sight and easy to reach with this movable storage system located between the two front seats.

3. Electronic Climate Control (ECC). Dual-zone settings for the driver and front passenger mean you can set a different temperature for each side of the car.

4. Heated steering wheel. Keep your hands warm in cold conditions with this easy-to-grip leather-stitched wheel.

5. Electric parking brake. A push-button handbrake is effortless and practical, plus it frees up space between the seats for more FlexRail® storage.

SAFER ALL OVER.

Like every new Opel, the Meriva has an array of advanced, German-engineered safety features to protect you and your passengers – and put your mind at ease on the road. Like the optional Adaptive Forward Lighting (AFL) system that automatically adjusts the headlamps when you're cornering at night. Or active headrests that help prevent whiplash in the event of a rear impact. If safety is on your checklist, consider it checked.

Optional AFL improves visibility and safety when you're driving in the dark, using changes in speed and steering angle to adjust the direction and strength of your headlights. Dynamic Curve Light turns the lights into the bend while Static Cornering Light throws light up to 90° to the left or right so you can see better what's around the corner. For more on AFL, go to

specifi-
cations.

1.

2.

1. Rear View Camera. Get a clear view of the area behind you when you reverse. The 130° wide display makes it easier to judge distances to the rear and the sides.

2. Park Assist. Sensors mounted on the front and rear of the car trigger an acoustic warning if you get too close to the next object. Park Assist activates automatically when you select reverse gear.

Passenger protection. The new Meriva's passive safety systems include a high-strength steel rigid passenger cell and optional wrap-around airbag protection.

CONNECTS WITH YOUR LIFE.

You don't have to be a high-tech hotshot to appreciate the excellent infotainment options in the new Opel Meriva. Whether you're syncing a smartphone, finding the quickest way to a new place or just listening to music on an MP3 player, the Meriva has the Bluetooth® technology, big screen and sockets you need'. When it comes to keeping entertained, informed and in touch, you'll hardly notice the difference from home.

The optional CD 600 IntelliLink makes full use of cutting-edge technology to give you swift, intuitive access to all your multimedia on a high-resolution, 7-inch home screen. The CD 600 IntelliLink lets you make calls and stream audio from smartphones, tablets and other portable devices using Bluetooth®, or update features via USB. You can customize the home screen – which is also the display for the Rear View Camera – for easier access to your favourite features, from music to settings to a particular device. For easy navigation and maximum safety, upgrade to the 3D Navi 950 IntelliLink entertainment system (right), which accepts one-shot voice commands for navigation, phone calls and music track choice.

1. USB and aux-in for portable devices. These two sockets give you stable in-car access to a whole host of portable Bluetooth® and USB audio devices¹, so it's quick and easy to connect smartphones, tablets and other portable gear. You can make calls and access your own music and photos – and re-charge your device as you go.

2. FlexDock®. This intelligent, optional mount lets you access your smartphone or portable sat nav cable-free in the car and keep it out of harm's way, in easy reach and visible on the dashboard. FlexDock® stays connected to the car's sound system at all times, so there's no need to plug or unplug your device to make or take calls and stream media from your MP3 player or smartphone to the central display.

local specifications.

¹Different systems work with different devices. To check compatibility for your devices, go to www.countryspecific.url or ask your Opel retailer.

ACCESSORIES.

The new Meriva is one of the most practical cars Opel has ever built, so of course there is a broad range of accessories available to ensure you can adapt your car to suit your individual lifestyle. For example, tailored privacy shades and child seats with ISOFIX brackets (right) that comply with strict EU safety standards.

Go online for more. Browse the complete range of Opel accessories at www.opel-accessories.com

1. Floor mats. A range of hard-wearing floor mats is available to protect your interior that are easy to take out and clean.

2. Bike carrier. Take your bikes for a ride on this easily mounted carrier that attaches to the optional towing hitch. The carrier securely transports two bikes with an optional extension available for a third.

3. Boot lip protection foil. Safeguard the paintwork at the rear of your Meriva from accidental scuffs and scratches when you load and unload the boot. Additional kits protect other potentially vulnerable areas of the car.

4. Hard cargo liner. Keep the boot clean and tidy with this flexible and washable tray. The non-skid surface prevents your belongings from slipping and there's a lip to limit damage should liquids spill.

Not in combination with page 40/41 B.

A large, mature tree with a thick trunk and dense green foliage stands in the center of a landscaped area. The tree is surrounded by a low, circular border of dark green shrubs. In the background, a light-colored stone wall with large rectangular panels stretches across the frame. To the left of the tree, a paved plaza with a brick pattern leads towards a green lawn and more trees in the distance. The foreground shows the top of some green leaves, slightly out of focus.

Tune up for touring. If you prefer cars with sportier styling, the Meriva Body Tuning Kit is a must. It gives your new car the extra muscle of an OPC style roof spoiler, rear lower skirts and side sills. For extra storage space, add an equally aerodynamic Thule roof box. Now you're good to go.

NOTE TO COUNTRIES:
Please insert the most economical engine(s) relevant for your market.

ENGINES AND TRANSMISSIONS.

The new Meriva is a lively drive and that's down to the range of Euro 6 engines that combine comparatively low fuel consumption and emissions with brisk performance, like the **XX litre XXXX unit with XX kW (XXX hp)**.

CONSUMPTION AND EMISSIONS

All information was accurate and up to date at the time of going to press. The company reserves the right to alter engine specifications at any time, which may influence the content of the shown data. Please consult your Opel dealer for the latest information. All figures quoted relate to the EU base model with standard equipment. Fuel consumption data and CO₂ emission data are determined according to regulation R (EC) No. 715/2007 (in the version respectively applicable), taking into consideration the vehicle weight in running order, as specified by the regulation. Additional equipment may lead to slightly higher results than the stated consumption and CO₂ figures. The figures for fuel consumption and CO₂ emissions do not relate to a specific vehicle and are not part of an offer. They are provided only for the purpose of comparison between different vehicle variants. Additional equipment may increase the weight of the vehicle when empty and in some cases the permissible axle weights as well as the permissible total weight of the vehicle and reduce the permissible towing weights. This may lead to a reduction in top speed and increased acceleration time. Driving performance figures assume a 75 kg driver plus a 125 kg load.

¹In acc. with regulation R (EC) No. 715/2007 (in the version respectively applicable). ²Available as of April 2014.

RIMS AND WHEELS.

OPEL FOR LIFE.

Every Opel is designed and built to perform day in and day out. But like any piece of precision engineering, it performs best when it's cared for by people who really know what they're doing.

Throughout Europe, more than 6.000 Opel repair shops are ready to deliver professional and punctual service. As you'd expect, they'll repair your vehicle to the highest standards. As you might not expect, they'll tell you exactly what's been done and why, and they'll give you a clear and concise overview of any costs. To find your nearest authorized repairer, go to www.opel.com or call the Opel service hotline: XXX-XXX-XXX-XXX, Monday to XXday, X a.m. to XX p.m.

Please fill in your
local specifications.

Opel Roadside Assistance. This mobility service is free of charge for all new Opel vehicles for one year after they were first registered or delivered to the customer by the distributor, depending on which date comes first. No matter where you are, Opel Roadside Assistance is there to help. In more than 40 European countries, round the clock. Offering services such as breakdown assistance, towing, a hire car, hotel accommodation or the organization of onward transportation, e.g. via rail or air (please see programme conditions). Your distributor or authorized repairer will be happy to offer an extension at your annual service.

INNOVATIONS AT A GLANCE.

Opel specializes in features that make today's cars safer, more versatile, more user-friendly – and more fun to drive. Our innovations have also had a significant impact as car manufacturers everywhere seek to reduce fuel consumption. Here are just some of the great ideas that make your Opel such a pleasure to own.

Adaptive Forward Lighting (AFL). Opel's celebrated AFL system makes driving at night safer and less stressful by automatically adjusting your headlamps in fast bends and sharp, very slow-moving corners.

AGR seats. Adjustable seats that were the first to receive certification from Germany's AGR organization in recognition of their ergonomic design and capacity to reduce the strain on your back. AGR is an independent committee of experts from various medical disciplines.

FlexDoors®. FlexDoors® take the strain out of settling children safely into child seats, depositing bags on the back seat – or getting into the back yourself. These broad, rear-hinged doors swing out to 84° and out of your way so you can step in and out easily, without having to alter your posture.

Clever storage. A comfortable car is a tidy car, which is why the new Meriva offers up to 30 separate storage compartments for stowing everything from a laptop to a 1,5-litre bottle. For larger items, fold all three rear seats flat and the Meriva will take up to 1.496 litres of luggage.

FlexFix®. One of Opel drivers' favourite features. An integrated bike carrier that slides out of the rear bumper so you can mount up to two bikes quickly and easily on the back of your car. When you don't need it, FlexFix® slides back into the bumper and out of sight.

FlexRail®. A modular console mounted between the two front seats that offers customizable storage and also serves as an armrest. You can add and take away a variety of modules, like a cupholder or storage for CDs. As the name implies, you can also adjust the console's position by sliding it up and down on rails.

Heated steering wheel. A must if your new Meriva is going to stay just as cosy on freezing mornings as it is when it's warm. A leather-stitched, heated wheel does more than warm up your hands. It enhances safety by ensuring you get a good grip.

FlexSpace®. This versatile system allows you to quickly change the number of seats in the back of the new Meriva, **from three to none** at all and anywhere in between. The real beauty of the system? All the seats stay fixed in their anchors and still fold perfectly flat.

ACCESSORIES.

The new Meriva is one of the most practical cars Opel has ever built, so of course there is a broad range of accessories available to ensure you can adapt your car to suit your individual lifestyle. For example, tailored privacy shades, or for fans of sporty body styling there's a Body Tuning Kit that includes a roof spoiler, rear lower skirts and side sills. For extra storage space, add a Thule roof box and you'll be good to go.

Go online for more. Browse the complete range of Opel accessories at www.opel-accessories.com

1. Floor mats. A range of hard-wearing floor mats is available to protect your interior [that are](#) easy to take out and clean.

2. Bike carrier. Take your bikes for a ride on this easily mounted carrier that attaches to the optional towing hitch. The carrier securely transports two bikes with an optional extension available for a third.

3. Privacy shades and child seats. Sturdy Opel child seats come with ISOFIX brackets and comply with strict EU safety standards. Meriva privacy shades are tailored to cover the whole window.

4. Hard cargo liner. Keep the boot clean and tidy with this flexible and washable tray. The non-skid surface prevents your belongings from slipping and there's a lip to limit damage should liquids spill.

OPEL FOR LIFE.

Every Opel is designed and built to perform day in and day out. But like any piece of precision engineering, it performs best when it's cared for by people who really know what they're doing.

Europe-wide Customer Service. Throughout Europe, more than 6.000 Opel repair workshops are ready to provide professional and punctual service. As you'd expect, they'll repair your vehicle to the highest standards. More unusually, perhaps, they'll tell you exactly what's been done and why, and they will show any costs involved clearly and concisely.

Opel Roadside Assistance. This mobility service is valid and free of charge for all new Opel vehicles during the first year after the date on which they were first registered or delivered to the customer by the distributor, depending on which date comes first. No matter where you are, the Opel Roadside Assistance is there to help. In more than 40 European countries – round the clock. Offering services such as breakdown assistance, towing services, rental car, hotel accommodation or the organization of onward transportation, e.g. via rail or air (please see programme conditions). Your distributor or authorized repairer will be happy to offer an extension at your annual service.

Financing Offers. Opel Finance offers you interesting tailor-made financing models. You alone decide how you would like to pay for your vehicle, in accordance with your particular needs.

Leasing Offers. You can also lease your Opel, for example through Opel Leasing. Leasing terms can be adapted to fit your business requirements and capabilities. Also, Master Lease offers you a complete fleet management service from one source.

Insurance Service. Our Opel Insurance Services rounds off the Opel Service Package. We offer Opel customers all types of automotive insurance.

Opel Rent Service. Opel Rent will keep you on the road if your vehicle is out of service.

New Vehicle Warranty. 2-year new vehicle warranty. This warranty applies to any new Opel car for a period of 24 months without any mileage restrictions, as from the day on which it was either registered for the first time or delivered to the customer by the dealer, depending on which date comes first.

Extended Vehicle Warranty. This repair cost insurance enables you to extend the warranty on your new vehicle to a maximum of 10 years.

12-year Anti-Perforation Warranty. Opel provides you with a reliable long-term warranty against perforation, provided you have your vehicle serviced and all necessary inspections performed according to the service booklet.

3-year Warranty for Opel Batteries. With a 3-year warranty for service-installed Opel original batteries your starting problems are over – even in the coldest winter.

Parts and Accessories Service. Opel parts and accessories are available at your local Opel Shop, where you'll find everything to make your vehicle more comfortable or to meet your individual needs, as well as expert advice.

Opel on the Internet. Need instant information? At www.opel.com you can access a wealth of information on all Opel cars, services and accessories. Get online for Opel news and product updates.

Recycling. Information about Design for Recycling, Take-Back points for End of Life Vehicles (ELVs) and the recycling of ELVs can be found on the Internet page www.opel.com
